The *Style* GUIDE...

Architectural PROJECT

Popular with lighting designers, interior designers and architects, these luminaires enable you to create either a modern minimalist effect or a real statement for your design project. Anti-glare trimless downlights and concealed LED ceiling profiles are perfect for a layered minimalist look. Combine modern LED hoop pendants, LED task lights and beautiful plaster wall lighting to create contemporary, functional lighting with maximum impact.

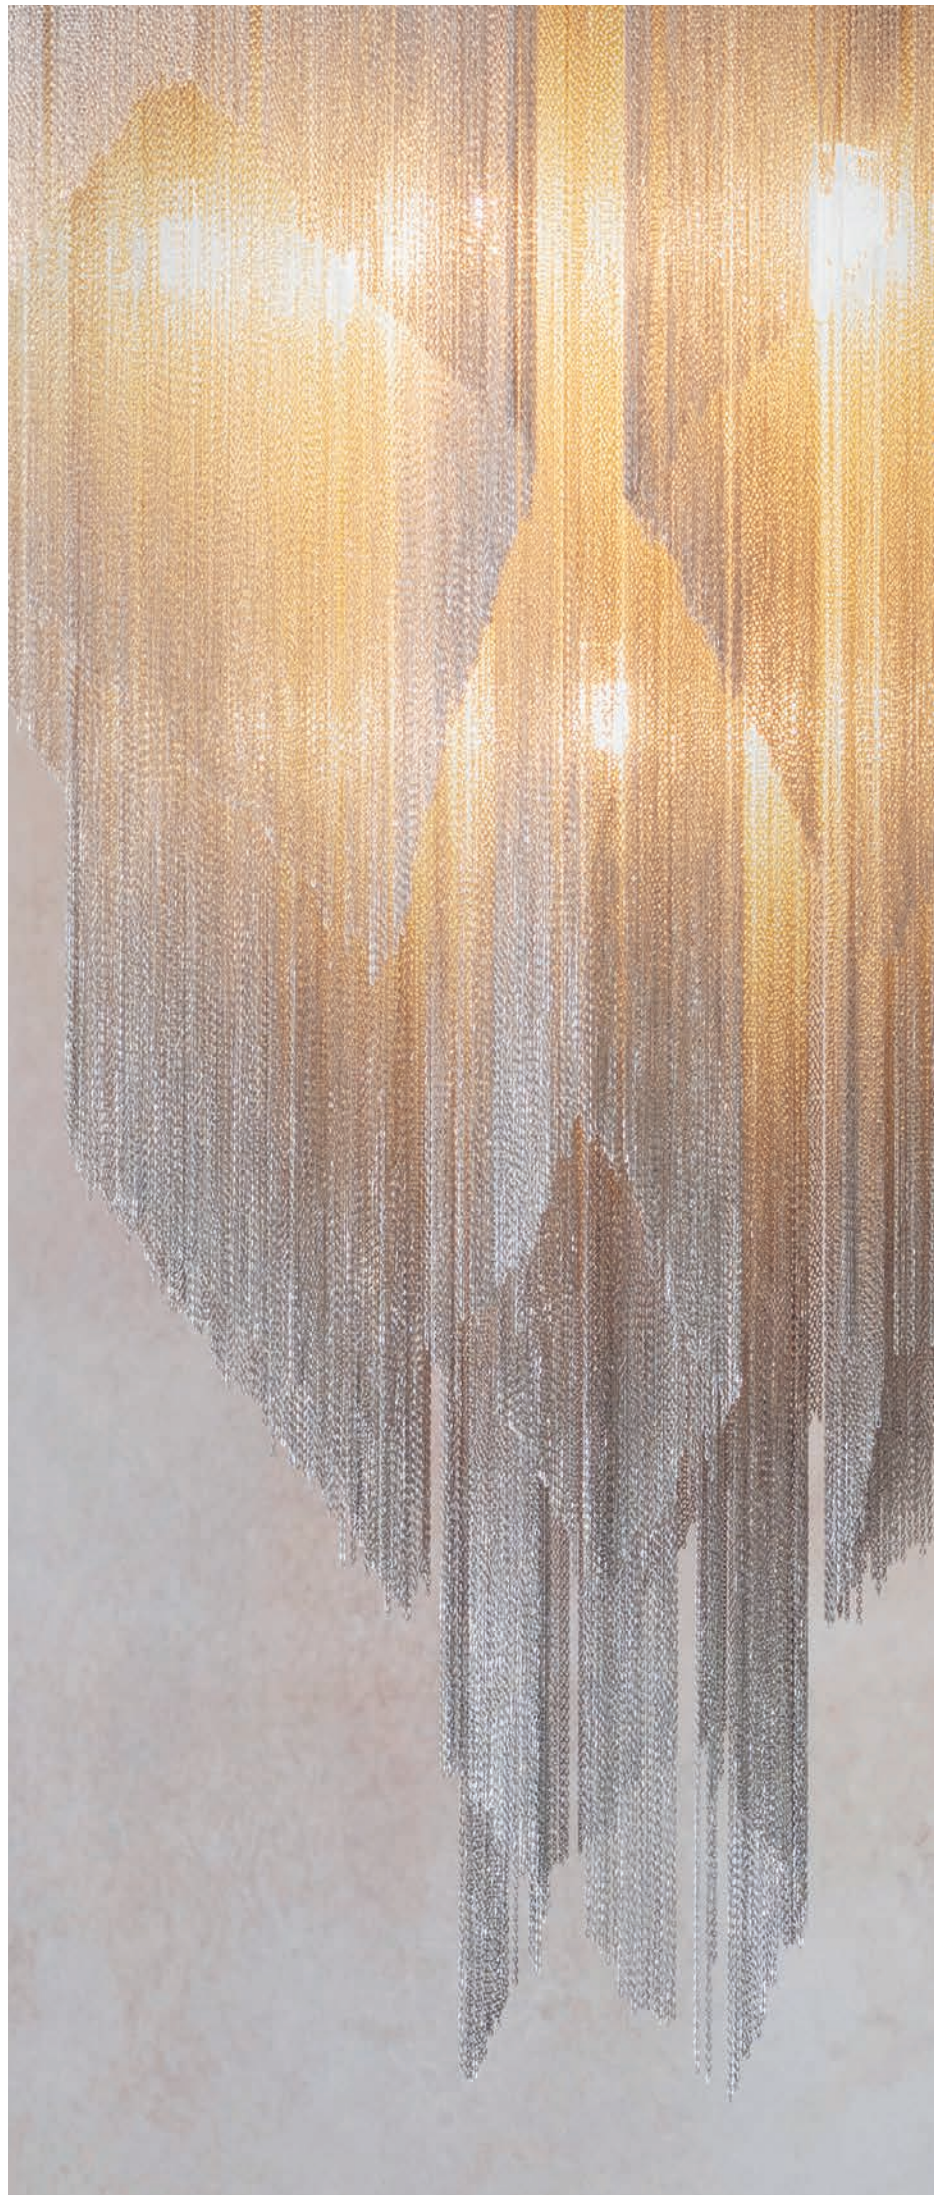

The *Style* GUIDE...

Boutique Hotel

Add a touch of luxury to your interior. Statement ceiling lighting for a glamorous feel, twinned with wall lights, recessed downlights and concealed lighting for a layered lighting effect. Statement pendant lights can also be positioned by bedsides creating drama and to ensure spaces remain uncluttered. For a professional feel, go for bedside lights with dual light sources, soft, ambient light for relaxing, mixed with the versatility of a bright LED reading light, perfect for re-creating a designer hotel style.

The *Style* GUIDE...

Classic

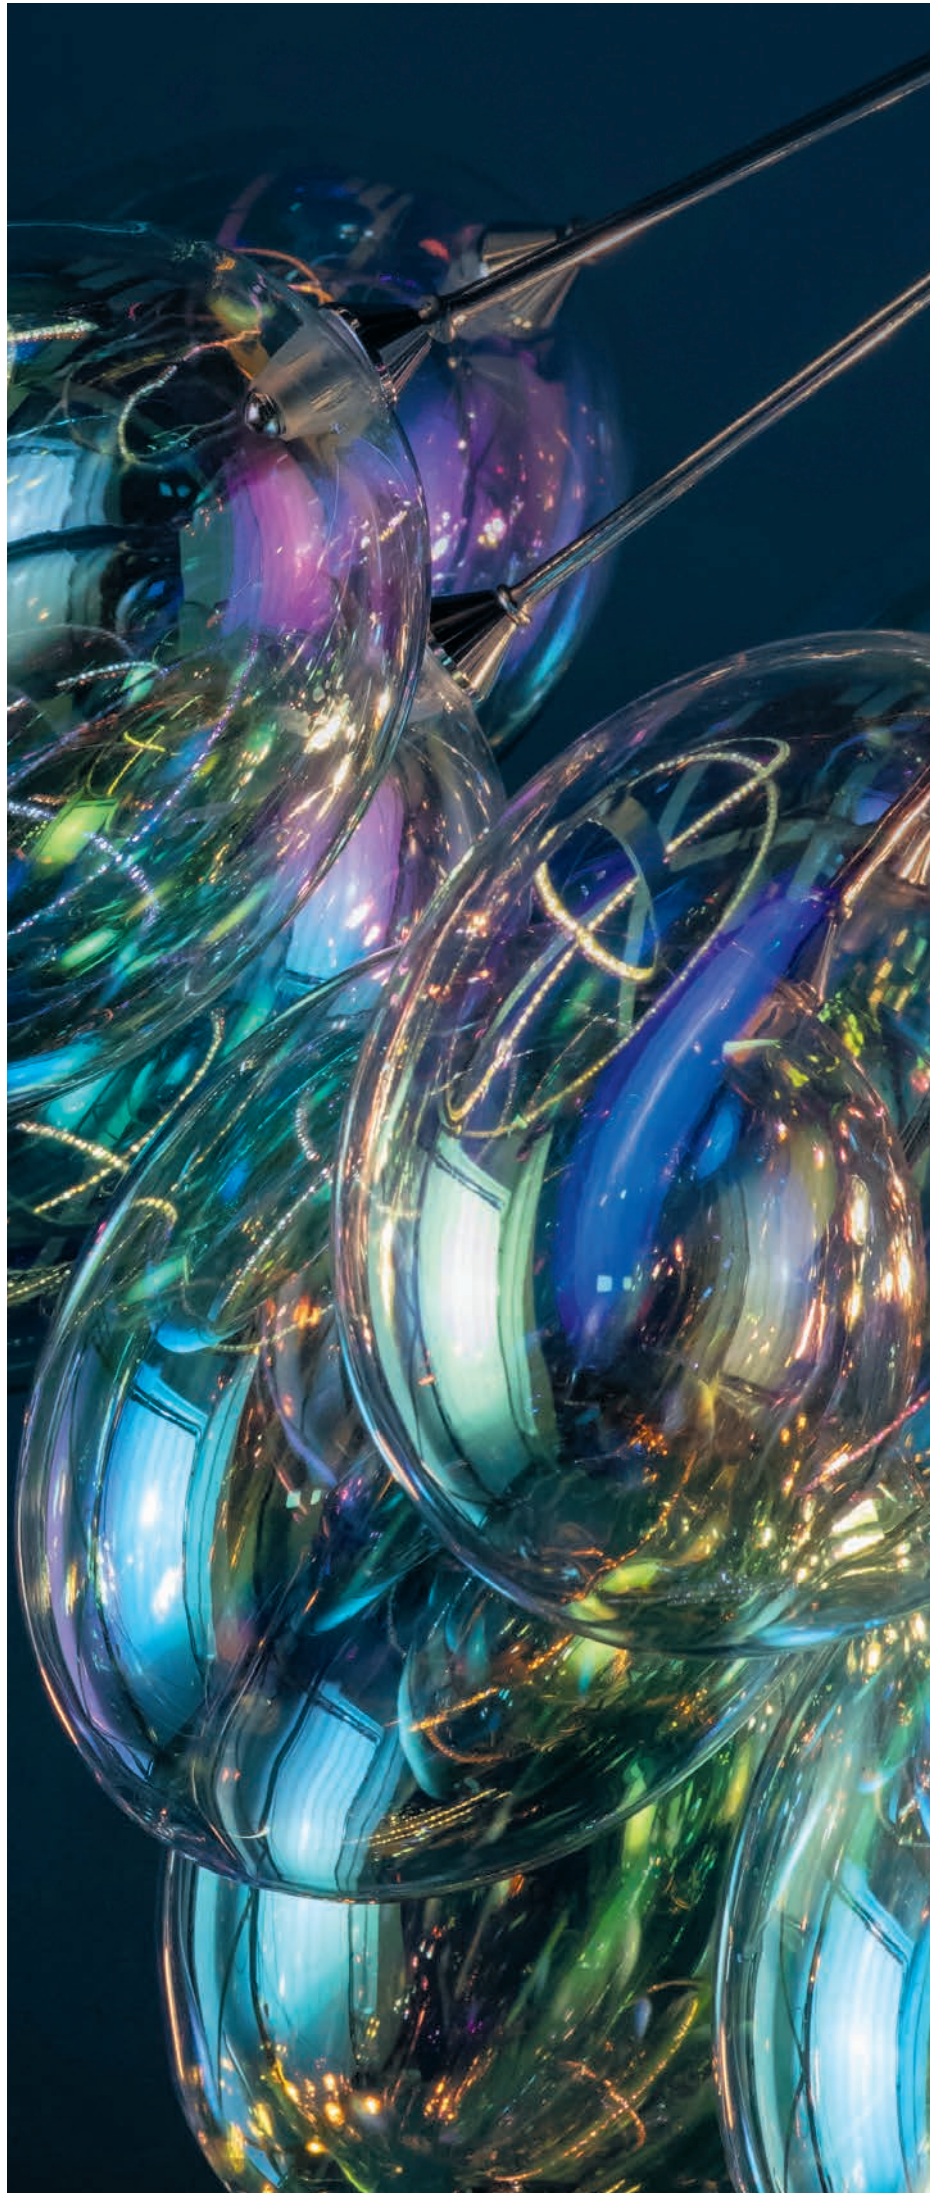

Take everything that is great about the past and make it even better, with a subtle modern twist. Classic lighting is a relaxed modern take on designs that have stood the test of time, a timeless choice.

The *Style* GUIDE...

Modern

Modern lighting is based around geometric forms that are simple yet bold in design. Materials and finishes are sophisticated and vary from reflective glass with highly polished plating to satin brushed effects with glowing white glass shades. Let your lighting stand out without being crowded.

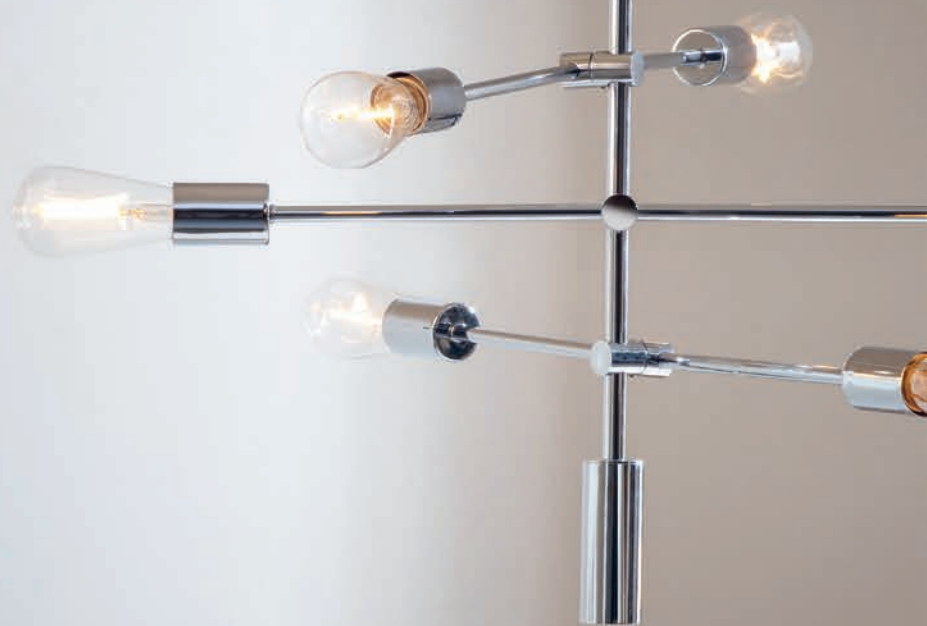

The *Style* GUIDE...

Crystal

Add sumptuous elegance to any room, exquisite when lit and equally as effective during the daytime, as the light creates decorative patterns on walls and ceilings. Use the perfect crystal chandelier to add a touch of the dramatic.

The *Style* GUIDE...

Scandi

Influenced by design styles from Sweden, Norway, Denmark and Finland. Scandinavian interior lighting works best with neutral colour palettes. Minimalist light fixtures with table and floor lamps are regularly used to set the mood, combined with a statement ceiling light to bring the room together, adding understated elegance and warm functionality, resulting in spaces that are filled with light.

The *Style* GUIDE...

Industrial

LED lamps are an essential part of today's on-trend interiors. Create a unique refreshing style with a nod to the past. Go for single cable sets, positioned over designer surfaces and paired with vintage LED filament and anti-glare lamps. Bare but bold, the perfect industrial style.

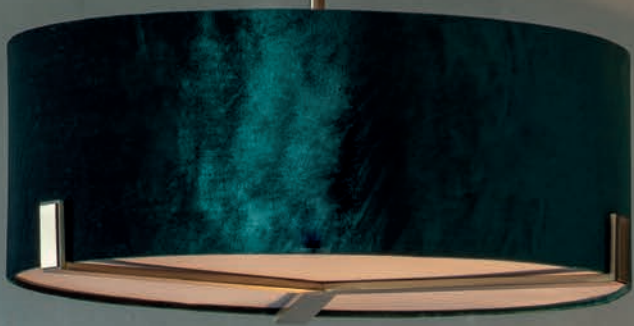

The *Style* GUIDE...

Bathroom

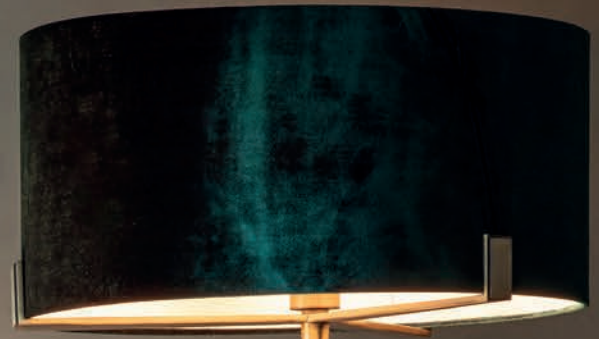

If you desire a sleek, clean family space or a splash of hotel-style chic, we've selected a range of inspiring lighting for you to make a statement and indulge yourself.

Interior

An eye-catching collection of chic style and glamour, this hotel style collection is a classic combination of luxurious velvet with understated antique brass effect metalwork.

Colour Temperature

Warm white 3000K

Warmer white light is generally preferred for creating a more relaxed environment in living spaces, dining rooms, reception areas.

Cool white 4000K

Cool white is a great choice for areas where simulated natural is preferred. Perfect for tasks areas, such as kitchens and bathrooms.

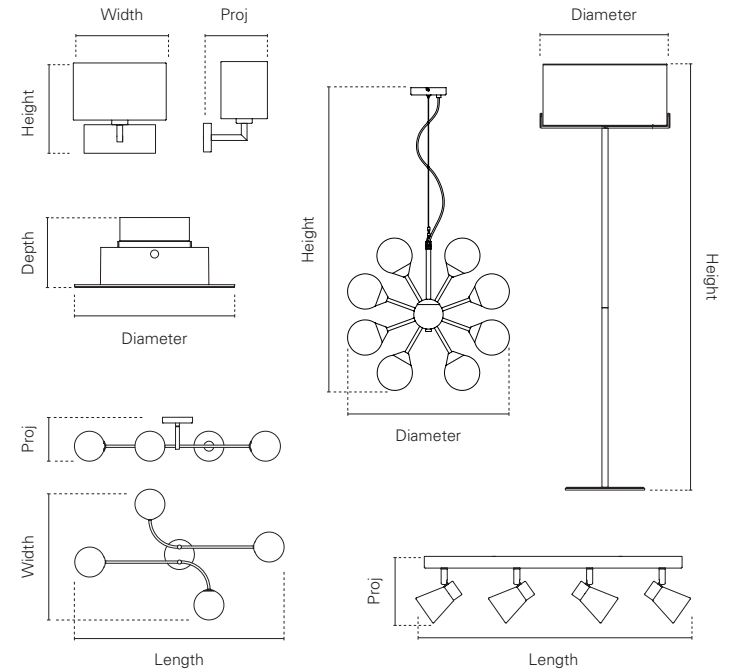

CRI

Colour rendering index, relates to the ability of a light source or product to show accurate colours when compared to an ideal or natural light source.

Wattage Conversion

OLD WATTAGE (Incandescent)	LUMENS (Typical)	LED WATTAGE (Typical)
15W	140	1-2W
25W	250	2-4W
40W	470	4-6W
60W	800	6-10W
75W	1050	10-12W
100W	1500	14-16W

Dimensions

IP Rating (Ingress Protection)

Zone 0 ■ Zone 1 ■ Zone 2 ■ Outside □

Zone 0 - Within a bath or shower tray. All lights fitted within this area must be IP68 rated and low voltage.

Zone 1 - Above the bath or shower to a height of 2250mm. All lights fitted within this area must be a minimum of IP44 rated. Where a shower head is above the bath IP65 should be used. Lights must be protected by a 30mA RCD if supplied at mains voltage.

Zone 2 - 600mm outside of Zone 1 and a 600mm radius above washbasins. All fittings in this area should be a minimum of IP44, unless there is a danger of direct water jet spray in which case IP65 rating is required.

Outside Zones/Zone 3 - There are no special requirements in this zone in the UK. In Ireland Zone 3 requires IP rated products.

FIRST NUMBER (Protection from solids)		SECOND NUMBER (Protection from liquids)	
1	Protected against a solid object greater than 50mm such as a hand	1	Protected against vertical falling drops of water. Limited ingress permitted
2	Protected against a solid object greater than 12.5mm such as a finger	2	Protected against vertical falling drops of water with enclosure tilted up to 15° from the vertical. Limited ingress permitted
3	Protected against a solid object greater than 2.5mm such as a screwdriver	3	Protected against sprays of water up to 60° from the vertical. Limited ingress permitted
4	Protected against a solid object greater than 1mm such as a wire	4	Protected against water splashes from all directions. Limited ingress permitted
5	Dust protected. Limited ingress of dust	5	Protected against jets of water
6	Dust tight. No ingress of dust	6	Protected against powerful jets of water.
		7	Watertight against immersion in water between 15cm & 1m for 30 minutes
		8	Watertight against immersion in water for long periods

ENDON®

COLLECTION

Endon designers take great care with the colours used in the 'Collection'. The limitations of the printing process may mean a slight variation in colour. Every reasonable care has been taken to ensure that the reproductions are accurate. Descriptions in the catalogue are approximate only. Due to the nature of the product and its manufacture, there may be variations in materials, colour, size and finish.

We always seek to improve our product and reserve the right to make changes at any time without notice. This catalogue supersedes all previous issues.
