# TECHNICAL INFORMATION & INDEX

# Colour Temperature

## Warm white 2000K - 3000K

Warmer white light is generally preferred for creating a more relaxed environment in living spaces, dining rooms, reception areas.

## Cool white 4000K & Daylight 6500K

Cool white is a great choice for domestic areas where simulated natural light is preferred. Daylight is cooler still and, depending on your preference both are perfect for task areas, such as kitchens, bathrooms and utility rooms.

WARM WHITE

COOL WHITE

DAYLIGHT WHITE

# IP Rating (Ingress Protection)

**Zone 1** - Above the bath or shower to a height of 2250mm. All lights fitted within this area must be a minimum of IP44 rated. Where a shower head is above the bath IP65 should be used. Lights must be protected by a 30mA RCD if supplied at mains voltage.

**Zone 2** - 600mm outside of Zone 1 and a 600mm radius above washbasins. All fittings in this area should be a minimum of IP44, unless there is a danger of direct water jet spray in which case IP65 rating is required.

**Outside Zones/Zone 3** - There are no special requirements in this zone in the UK. In Ireland Zone 3 requires IP rated products.

# IP Rating Icon

## SOLID OBJECTS

- 1 Protected against a solid object greater than 50mm such as a hand.
- 2 Protected against a solid object greater than 12.5mm such as a finger.
- 3 Protected against a solid object greater than 2.5mm such as a screwdriver.
- 4 Protected against a solid object greater than 1mm such as a wire.
- 5 Dust protected. Limited ingress of dust.
- 6 Dust tight. No ingress of dust.

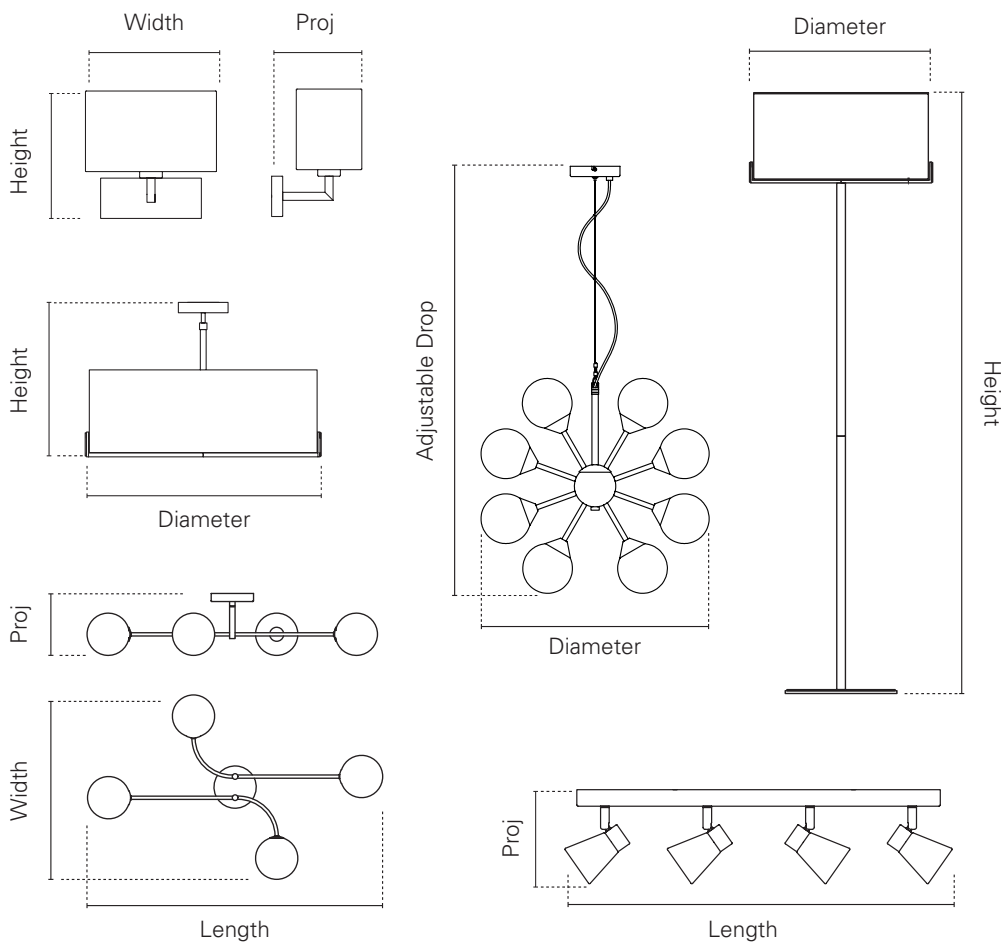

## MOISTURE

- 1 Protected against vertical falling drops of water. Limited ingress permitted.
- 2 Protected against vertical falling drops of water with enclosure tilted up to 15° from the vertical. Limited ingress permitted.
- 3 Protected against sprays of water up to 60° from the vertical. Limited ingress permitted.
- 4 Protected against water splashes from all directions. Limited ingress permitted.
- 5 Protected against jets of water.
- 6 Protected against powerful jets of water.
- 7 Watertight against immersion in water between 15cm and 1m for 30 minutes.
- 8 Watertight against immersion in water for long periods.

# Wattage Conversion

LIGHTING

Endon designers take great care with the colours used in the Directory. The limitations of the printing process may mean a slight variation in colour. Every reasonable care has been taken to ensure the reproductions are accurate. Descriptions in the catalogue are approximate only. Due to the nature of the product and its manufacture, there may be variations in materials, colour, size and finish.

Our natural stone, marble and concrete products are sold on the basis of your acceptance of the terms of this disclaimer. All these types of products contain natural stone elements and there will be variations in texture, colour, veining and patterns. These variations are not flaws, they create the uniqueness of each product. Please note that the appearance of the actual products may differ from the images shown due to these variations.

We always seek to improve our product and reserve the right to make changes at any time without notice. This catalogue supersedes all previous issues.

Endon Lighting are proud to be partnered and associated with the organisations shown below.

Cert No 953-QMS-001  
ISO 9001
